

## Press release Calendar Week 21/I

### **You can never have too much space Rameder with inexpensive towbars for Mercedes V-class and Vito**

They are called V-class or Vito: With these Mercedes vans you can travel in a stylish fashion and carry a lot of luggage and stuff, but sometimes even such a “spacecraft” doesn’t provide enough space. So **Rameder**, Europe’s leading provider of automotive transport solutions, has launched towbars for the latest Mercedes van generation.

In its online shop at [www.rameder.eu](http://www.rameder.eu) **Rameder** sells the removable towbar including a 13-pole electrical kit at an attractive price of Euro 308. The easy-to-use lever system provides a bearing load of 75kg and can tow 2,500kg. This much expands the Mercedes vans’ use: be it for a mega camper, horse trailer, shop trailer or flatbed trailer for cars or light construction machinery.
