

Press release Calendar Week 42/I

Performance, comfort - and now traction too!

Rameder transport solutions make Porsche Panamera and Macan even more versatile

Porsche Panamera and Macan are both similar and very dissimilar siblings. One is now firmly established in the luxurious travel limo segment, while the other is an SUV. In terms of performance and comfort, these Porsches are top; in terms of versatility, **Rameder**, Europe's market leader when it comes to automotive transport solutions, can help. Check out the shop at www.rameder.eu and find the right towbars and other useful accessories.

Use the **Rameder** towbar finder to access [Macan](#) or [Panamera](#). Then a list of towbars will pop up and the choice is yours. For the first-generation Porsche Panamera, you can get a detachable towbar for 459 €. For the Macan, you can get two complete sets including the electrical kit. One is detachable (414 €) and one retractable (564 €).

In terms of performance and comfort, these Porsches are almost unbeatable to begin with; in terms of transport solutions, **Rameder** has these towbars not only for conventional trailers; they are also perfect for special bike carriers that make use of the car's slipstream. And **Rameder** also has the right racks for the Porsches' roofs, be they for bikes, skiers or snowboards.

But that is not where **Rameder's** huge portfolio stops. It provides many more automotive transport solutions in many a category; from trailer accessories to roof racks to car care products. Just visit www.rameder.eu!
